## The experience of a leader - Korean Air Cargo

The second largest cargo carrier in the world, Korean Air Cargo operates to and from most major destinations in Asia, North America, Europe and Oceania with its newest and largest freighter fleet of B747Fs and MD11Fs. It continues to invest in modernization of freighter fleet, state-of-the-art facilities and IT to provide more reliable service to customers.

Korean Air Cargo is a member of SkyTeam Cargo. By sharing experience and knowledge, the team members of SkyTeam Cargo bring more effectiveness, security and quality to its service for customers.

## What is the fastest way for your urgent shipment?

Equation is designed for small shipments, Equation-Heavy is for medium to large shipments. The fastest and easiest express service!

Equation is an airport-to-airport express service designed to move customers' shipments in urgent delivery. From acceptance to delivery, Korean Air Cargo handles Equation shipment with top priority, and guarantees boarding on the first available flight.

For speediness and safety, Equation shipments and documents are handled by exclusive procedures from acceptance to delivery. The web site [www.koreanaircargo.co.kr](http://www.koreanaircargo.co.kr) gives customers the opportunity to track the progress of their shipments, and e-mail tracking is also available.

Parcels up to

70kg  
accepted

Shipments up to

300kg

No reservation  
necessary
